ENDOWMENT PERFORMANCE

JULY 1, 2022 - JUNE 30, 2023

This year's endowment fund performance was strong as market conditions stabilized in the post-pandemic period. Global and domestic markets rebounded from last year's declines and the U.S. economy remained stable, with softening inflation, despite recession forecasts. As a result, the PSU Foundation's portfolio returned a +7.2% gain for the 12-month period ending June 30, 2023.

Our investment advisor continues to forecast annualized returns that will meet our future growth goals. The PSU Foundation maintains policies and practices designed to nurture our endowment over the long term to provide meaningful support in perpetuity to the university.
